

**EXECUTIVE DIRECTOR OF DEVELOPMENT, WINSHIP CANCER INSTITUTE  
EMORY UNIVERSITY  
Atlanta, Georgia**  
<https://winshipcancer.emory.edu/>

The Aspen Leadership Group is proud to partner with Emory University in the search for an Executive Director of Development, Winship Cancer Institute.

Reporting to the Vice President for Development, Woodruff Health Sciences Center, with dotted-line reporting to Winship's Executive Director, the Executive Director of Development will be a thought leader prepared to direct and coordinate fundraising efforts and provide strategic planning for philanthropy in support of the Winship Cancer Institute. The Executive Director will be charged with seeking principal gifts from grateful patients, grateful patient families, alumni, non-alumni individuals, corporations, and foundations in support of faculty, programs, and facilities and will lead and manage a team that raises funds for Winship's multidisciplinary cancer disease programs. This leader will implement its annual giving program, develop and execute signature events, and support Winship's auxiliary groups.

Winship is Georgia's only National Cancer Institute-designated cancer center and achieved comprehensive status in 2017. Winship serves as the coordinating center for cancer research, education, and care throughout Emory University. Winship physicians provide care at Emory University Hospital, Emory University Hospital Midtown, Emory Saint Joseph's Hospital, Emory Johns Creek Hospital, Grady Memorial Hospital, the Atlanta VA Medical Center, and Aflac Cancer and Blood Disorders Center at Children's Healthcare of Atlanta. Winship uses state-of-the-art approaches to therapy and facilitates cancer prevention, treatment, and survivorship through support groups and integrated, complementary therapies. Cancer care at Emory University Hospital through Winship is one of the top-ranked cancer programs in the nation according to *U.S. News & World Report*.

Emory University is a private, research institution recognized internationally for its outstanding liberal arts colleges, graduate and professional schools, and one of the world's leading health care systems. Emory maintains an uncommon balance for an institution of its standing: its scholars and experts generate \$628 million in research funding annually while also maintaining a traditional emphasis on teaching. From cutting-edge medical breakthroughs and scientific advancements to groundbreaking scholarship and scholarly writing that attracts national headlines, Emory thrives on discovery. At Emory, discovery finds many creative pathways, from using imaging technology to reconstruct the brain architecture of an extinct tiger to research into how governments confront the challenge of contagious diseases or how hormonal changes help fathers bond with toddlers. The University is enriched by collaboration among its schools, centers, and partners as well as by the legacy and energy of Atlanta. Emory strives to advance the common good through research, teaching, and service. The extraordinary, talented community propels its work forward. Though its areas of expertise vary, Emory finds shared purpose in its mission to "create, preserve, teach, and apply knowledge in the service of humanity."

A Bachelor's degree is required for this position as is a minimum of ten years of progressively responsible experience in complex development programs, preferably within higher education or a health care non-profit institution or cancer center/institute. A Master's degree is preferred. All applications must be accompanied by a cover letter and résumé.
